

REVISED CONSTRUCTION NOTICE

09/05/2019

Washington Blvd., Area Main Replacement Project Installation of New 12", 8" Water Mains, Fire Hydrants, Fire Services and Domestic Services

What	Installation of new Water Main, Fire Hydrants, Fire Services, and Domestic Water Services installed in Washington Blvd., from Helm's Avenue to Sentney Avenue.
When	<p>Construction activities commenced on August 19, 2019. Due to unforeseen existing street conditions, additional construction hours have been approved by the City of Culver City to <i>allow Saturday working hours</i> to accommodate the conflicts to maintain the construction schedule.</p> <p><u>REVISED WORKING HOURS ARE AS FOLLOWS:</u></p> <p>Monday – Friday 9:00 a.m. to 4:00 p.m.</p> <p>Saturday – 9:00 a.m. to 5 p.m.</p>
Where	<p>Washington Blvd., Helm's Avenue to Sentney Avenue Sentney Avenue from Washington Blvd., to Golden State Water Company's Plant Facility. Hargus Street from Washington Blvd., to Culver City limits La Cienega Avenue from Washington Blvd., to Culver City limits. McManus Avenue from Washington Blvd., to Culver City limits Fay Avenue from Washington Blvd., to Culver City limits. Cattaragus Avenue from Washington Blvd., to Culver City limits. Sherbourne Avenue Washington Blvd., to Culver City limits. Hutchinson Avenue from Washington Blvd., to Culver City limits. The alley south of Washington Blvd., from Helm's Avenue to Sentney Avenue and Tie-'s to existing neighboring mains throughout the project limits.</p>
What to Expect	<p>Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The services will generally be installed using an air compressor and pneumatic boring tool. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up <u>will not be interrupted</u>. As sections of the new main are completed crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.</p>
Contacts	<p>If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.</p>
