

CONSTRUCTION NOTICE

Serving Californians Since 1929

Belmont & Sumner Area Mains Abandonment

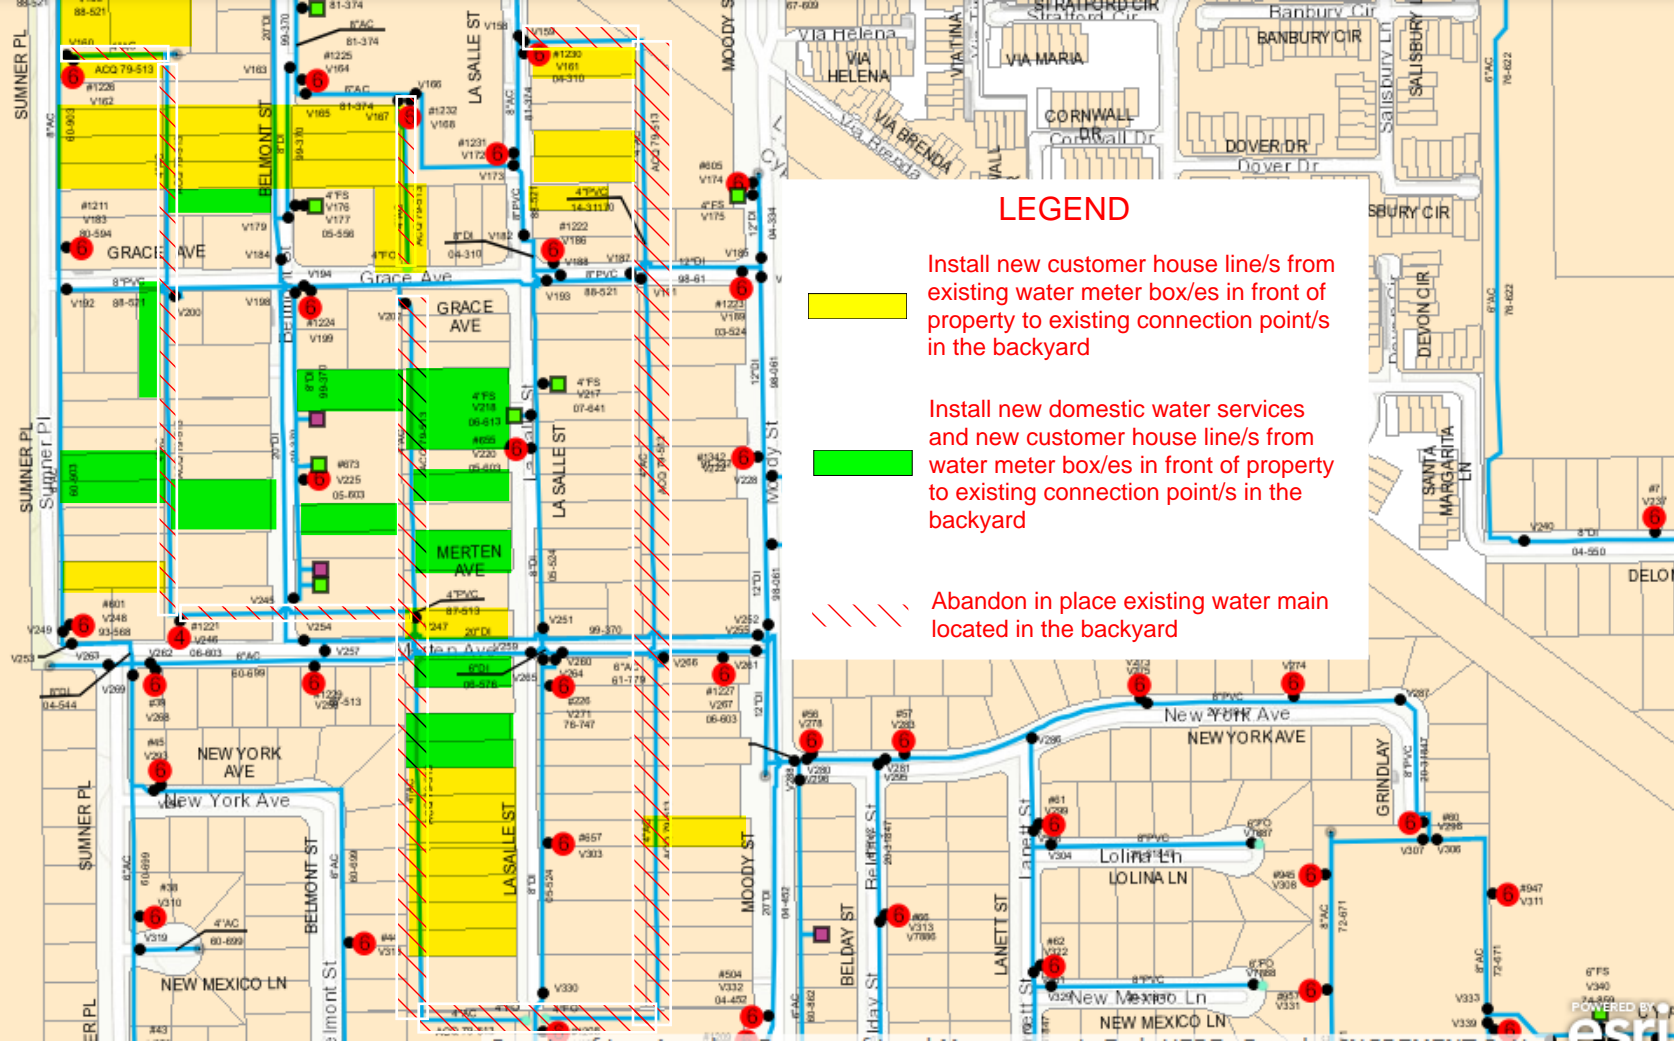

What	Perform water system tie-ins in the public right of way to abandon existing backyard water mains and install new water meter services in public right of way, behind curb & gutter.
When	Construction is scheduled early April 2021 through end of September 2021.
Where	Sumner Pl. between Crescent Ave. & Merten Ave., Belmont St. between Crescent Ave. & Merten Ave. and La Salle St. between Crescent Ave. and cul-de-sac at the south end of La Salle St.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging at various locations along above mentioned areas. The services will generally be installed using an air compressor and pneumatic boring tool. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick up will not be interrupted. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company's Construction Inspector, Mr. Jose Rivera at (714) 264-5018. Please visit our website at https://www.gswater.com/los-alamitos/infrastructure-projects/ for periodic updates on the construction progress.

Golden State Water Company thanks you for your patience while we work to improve your water system.
