

CONSTRUCTION NOTICE

Serving Californians Since 1929

West OC Fire Hydrant Replacement Project

| | |
|-----------------------|--|
| What | Replace dry-barrel fire hydrants and valve enclosures (approximately 50 locations in Rossmoor, Cypress, Los Alamitos). |
| When | Construction will begin in May 2022 and be substantially complete by mid-December 2022. Work hours will be between 8:00 AM and 4:30 PM. |
| Where | 39 locations in Rossmoor, 1 location in Los Alamitos. 12 locations in Cypress (Pauline Dr, Margaret St, Rosemary Dr, Lime Ave, Orange Ave, Leilani Ln, Salisbury Ln, Ethel St, Christopher St). |
| What to Expect | Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging at the hydrant sites. Crews may also use an air compressor and pneumatic tools. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick up will not be interrupted. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration. |
| Contacts | If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company's Construction Inspector, Mr. James Remus at (949) 981-5585. Please visit our website at https://www.gswater.com/los-alamitos/infrastructure-projects/ for additional information about capital projects in progress. |
