

Serving Californians Since 1929

Installation of a new Main, Fire Hydrants, Domestic Services and Customer Lines

What	Installation of new 4-inch, 6-inch, 8-inch diameter pipe, new fire hydrants, domestic services, and customer lines in area surrounded by Nadeau St., Hooper Ave., 83 rd St., and Central Ave. in the City of Los Angeles.
When	Construction will commence on September 11, 2017 with completion expected by February 2018. The City of Los Angeles working hours are from 7:00 am to 4:00 pm.
Where	The new mains, fire hydrants and services will be installed on Nadeau St, 80 th St, 81 st St, 82 nd St, 83 rd St, Naomi Ave, and Hooper Ave in the City of Los Angeles.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The services will generally be installed using an air compressor and pneumatic boring tool. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the new main are completed crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

Golden State Water Company thanks you for your patience while we work to improve your water system.

At Golden State Water Company, it has been all about water for more than 80 years. Our team of professionals delivers reliable, quality water and great service to customers in 75 communities across California.
