PUBLIC OUTREACH

GSWC Communications Plan:

- Mail/hand deliver Construction Notices to area residents 2 weeks prior to commencement of work
- Post periodic Website Updates of construction progress on GSWC website:
<https://www.gswater.com/los-alamitos/infrastructure-projects/>
- Hand deliver Service Interruption Notices to affected customers 14 days in advance of planned temporary shutdowns to connect new piping to existing distribution system (typically six to eight hours during normal work hours)
- Hand deliver separate Reminder Notices 48 hours prior to service interruption
- Communicate and arrange with individual affected customers (24-48 hours) prior to connecting new service to meter/house line plumbing (typically a short service interruption of 30-60 minutes)
